Dental Solutions

WE ARE LOOKING FOR IMPORTERS AND DISTRIBUTORS

BONYPLUS® SUPERIOR Adhesivecream

Advanced technologies have made it possible to now develop specific molecules which release active agents and gives our adhesive cream it's exceptional adherence. This advanced research has led to the development of two effective ingredients which, when activated by hydration (saliva) in the mouth are trans-formed into an adhesive gel which ensures long lasting adhesion and comfort. Bonyf Laboratory tests have demonstrated the superior holding power of our adhesive cream which can last up to **12 hours**. The **12 HOUR DENTURE ADHESIVE CREAM** is considered one of the best adhesive creams on the market today

BONYPLUS® Express Effervescent cleansing Tabs

Plaque can accumulate on your dentures causing unpleasant odours, bad breath and irritation of the gums. A combination of active oxygen and wash-active substances remove plaque, impurities, food remains, nicotine, tea and coffee stains. The **EXPRESS** effervescent Denture Cleansing tablets. contain no phosphate or chlorine and have a fresh mint flavour. The **EXPRESS** effervescent Denture Cleansing tablets offers all criterias a denture cleansing tablet must comply

with and are easy to use. Simply place one tablet in a glass of warm water together with your denture and after 3 minutes your denture is clean, fresh, odour free and ready to be used.
