Company Profile : MediNEWS.Direct! is a leading, global healthcare portal for peer-reviewed research, news, and intelligence covering medicine, pharma and biotechnology. The portal provides articles and reports based on research published in top medical journals from all major specialties in medicine, latest conferences, and the recent events in the medical, pharma, and biotech industries. The information is peer-reviewed by medical professionals and collated from multiple research sources. The portal also publishes business intelligence and market analysis information, and several strategic industry reports that support top management and key decision makers in the healthcare industry.
