Company Profile : Scientific Apparatus Manufacturers Association, popularly known as SAMA, was set up 40 years back. The association is having 230 members till date. SAMA looks into the issues related to labor acquaintance & maintenance for its members. Other issues like sales tax, service tax and other legal implications are discussed & sorted in the society meetings, which are held periodically. The organization is playing a vital role in sorting the problems & issues related to trade of scientific equipments and in raising the knowledge of significance of the same.

Product Category : Scientific and Laboratory Apparatus
